

A-Frame Cheese Press

Serving the food, dairy, & beverage industry
with strong, long-lasting equipment.

A-Frame Vertical Cheese Presses

Anco pneumatic cheese presses range from single to ten cylinder in size and constructed with 304 Stainless-Steel with a Number 4 finish. Our cheese presses can be custom built and designed to fit most cheese forms. Pneumatic controls come standard with every press. Both horizontal and vertical designs are available.

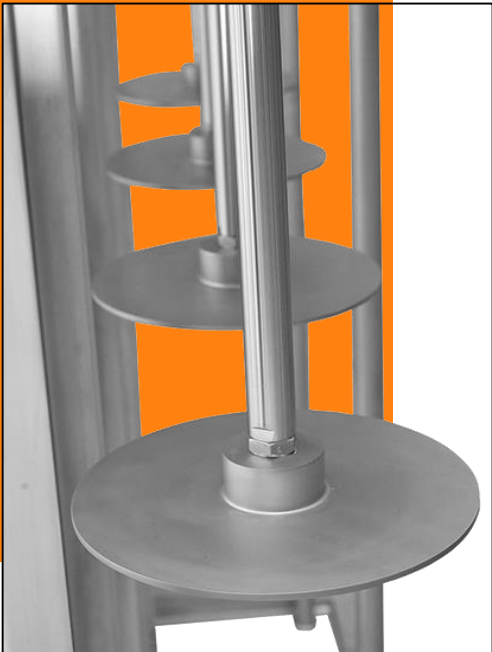

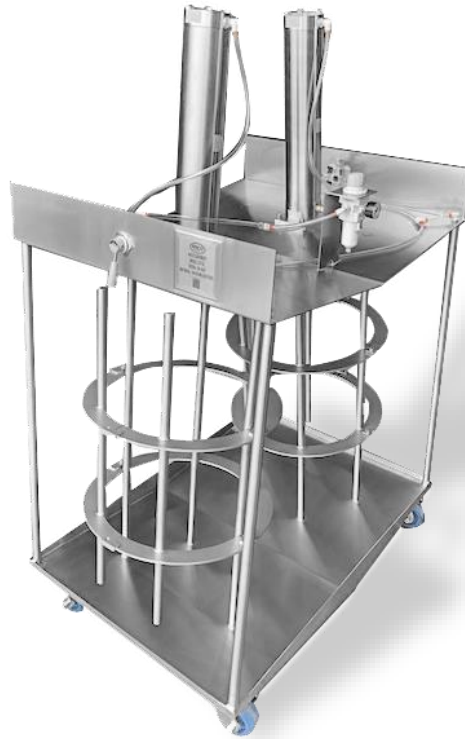

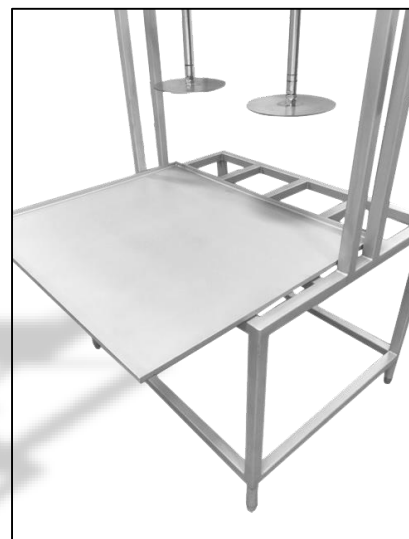

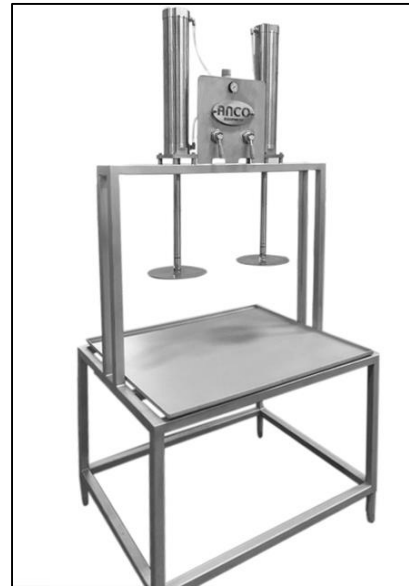

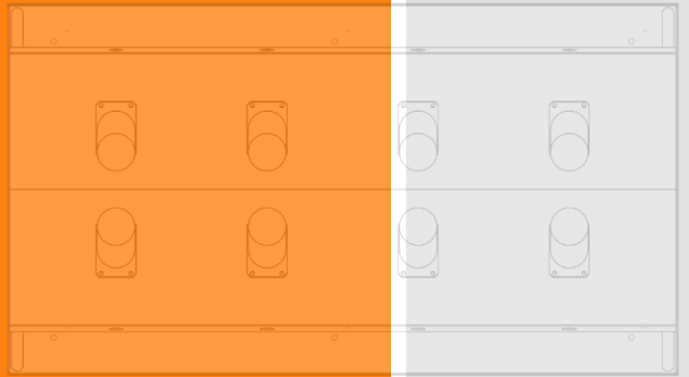

Table Cheese Presses

Table cheese presses are designed for a smaller scale cheese factory. It is available in one to four pneumatic driven control press heads and a heavy duty 304 Stainless Steel table with a whey drain outlet. Plates can be sized and designed to fit most cheese molds. They can be ordered with 3A adjustable ball feet or food grade casters.
